HOW TO USE Herbal Soap Bio pharmaceuticals

BATH, WASH HANDS

Wet hands, whole body, rub soap until it creates an appropriate amount of lather. Scrub all sides of hands, whole body for about 2 minutes and rinse with water. With the feature of creating fine and small foam, it can be combined with the use of foam tools, bath sponges, ... for a better experience.

Wet the face, rub the foam evenly on the face, use your hands to massage the cheeks, forehead, wings of the nose, chin. Then rinse with water and pat dry with a clean towel. Be careful not to let soap get into your eyes. However, it is not recommended to wash your face often with soap to avoid causing dry skin.

CREATE SHAVING

Wet hands, use hands to rub soap until a suitable lather is formed, should be used

Use mesh bags, loofahs, cloth towels... to create lots of foam

EXPIRY: 18 months for cake 100gr 24 months for

with bar 1.4kg
PRESERVE
Store in a dry place, away from light direct sunlight, avoid rodents

faster. Use your bare hands to continue massaging until the foam completely turns into a fine lather. Wet the skin to be shaved and then lather up. Proceed with shaving as usual and then rinse with water.

WASH ONE'S FACE

Foaming is similar to shaving foam.
